

Wood Venetian Blinds

Our Marupa wood raises the bar on venetian blind lightness, longevity, and value for money. These blinds are reliable, highly functional, and decorative window treatments - fully adjustable to get the desired light ambience in a room.

- Very light - compared to other wood and fauxwood blinds
- Made to measure in different sizes
- Heavy UV coating to look great for longer

Great value for money - higher quality at lower cost

Marupa blinds have even greater attributes than other venetians, yet at a significantly lower cost

Hardwood from environmentally-friendly sources

Marupa comes from sustainable plantations, unlike other timbers that are getting scarcer in quantity and quality. It's also more stable and doesn't warp as much as other woods and fauxwood.

Valance (fascia) covering the headrail

Fitting in with contemporary home décor, this design completely covers the high profile head rail, giving a better finished appearance.

Set light and temperature for optimum comfort

By tilting of the slats, you can create the exact light ambience you want. In winter, the great insulation properties of wood mean heat is conserved when slats are closed. In summer, they can be opened to let the cool breeze through.

Setting these blinds to full-tilt blocks the light and creates total privacy at night. By pulling them right up, an unrestricted view is possible.

Specifications

Size

- Minimum width:
 - Tilt only: 25cm
 - Split controls: 30cm
 - Combined control: 40cm

- Maximum width: 244cm

- Maximum area: 6m²

Components

- Slat width: 50mm - 25mm
- Slat thickness: 3mm (for 50mm) - 2.3mm (for 25mm)
- Valance (fascia): 63mm height x 7mm thickness (for 50mm) - 33mm height x 7mm thickness (for 25mm)
- Head rail: 57 x 51mm (for 50mm) – 25 x 25mm (for 25mm)
- Bottom rail: 50 x 15mm (for 50mm) – 25 x 15mm (for 25mm), 'H' shape
- Cords optionally on left or right as required
- Ladder: String or wide fabric tape (for 50mm) - string (for 25mm)
- Heavy-duty UV coating
- Product variation: being a natural product, minor variations may occur from item to item

Installation

- Easy to lift and angle, installed in minutes with easy-to-follow instructions

Operation

- Separate cords for pull-up and tilting of slats
- Tiltable slats - from clear unrestricted view to total view blocking
- Easy quiet lifting with finer cord and brass locking roller

Cleaning

- Remove dust from blinds with vacuum cleaner or compressed air
- Clean with damp cloth
- Do not scrub, or use solvents or any abrasive substance to avoid damaging slat coating

Colour range

There is a complete coordination of valances, headbox, bottom rails, tassels, tapes and cords for a perfectly integrated presentation.
