ONE LINE TELESCOPIC CURTAIN TRACK

1.8M-3M | 2.3M-4M | 2.5M-4.5M
70.87in-118.11in | 90.55in-157.48in | 98.43in-177.16in

① Adjust the length of the track.

Loosen the "+" type screws on the transition component, hold the tracks on both sides, and stretch them to the required size. It is recommended to leave about 2cm between the unit and the wall.

② Install the slider ring.

Press along the V-shaped groove of the slider, and the slider ring will be locked. The installation of the slider ring is complete. (Modular block combination slider, suitable)

③ Align carrier.

Firstly, locate the screws on the upper row of carrier and loosen them. Put both carriers to the edge of the unit and tighten the screws on carrier. Afterwards, pull on the carrier to confirm if it is running smoothly.
